

# How to Download and Install the Zoom Desktop Client and Mobile App

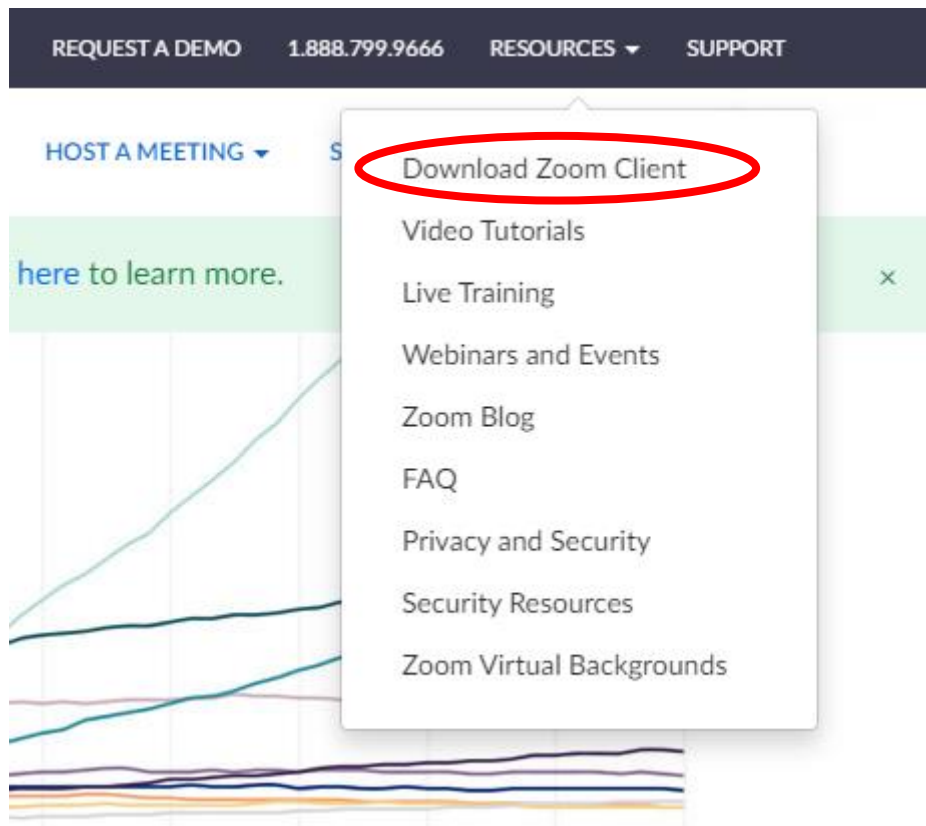

1. Go to <https://zoom.us/>

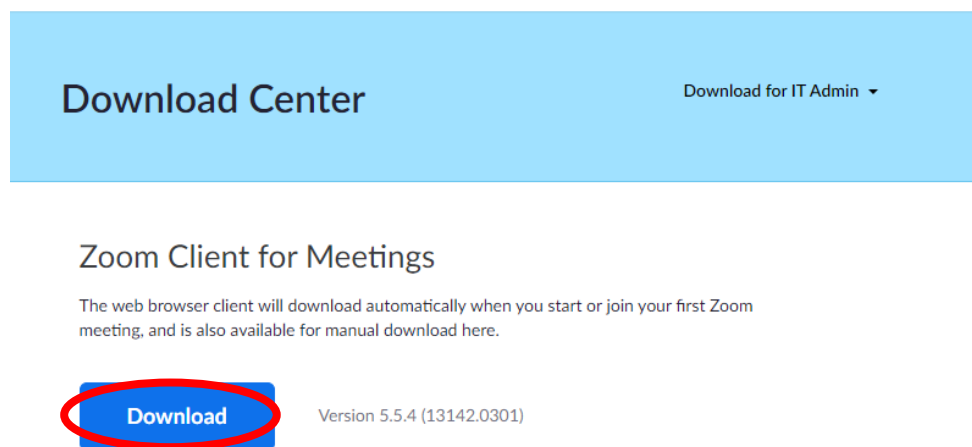

2. Click on **Resources** on top right.

3. Click on **download zoom client**.

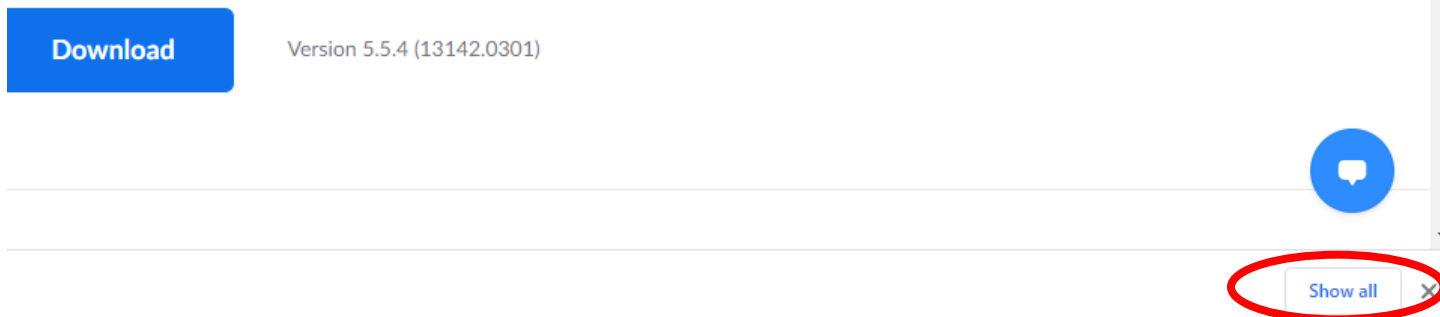

4. Click on **download** Zoom client for Meetings.

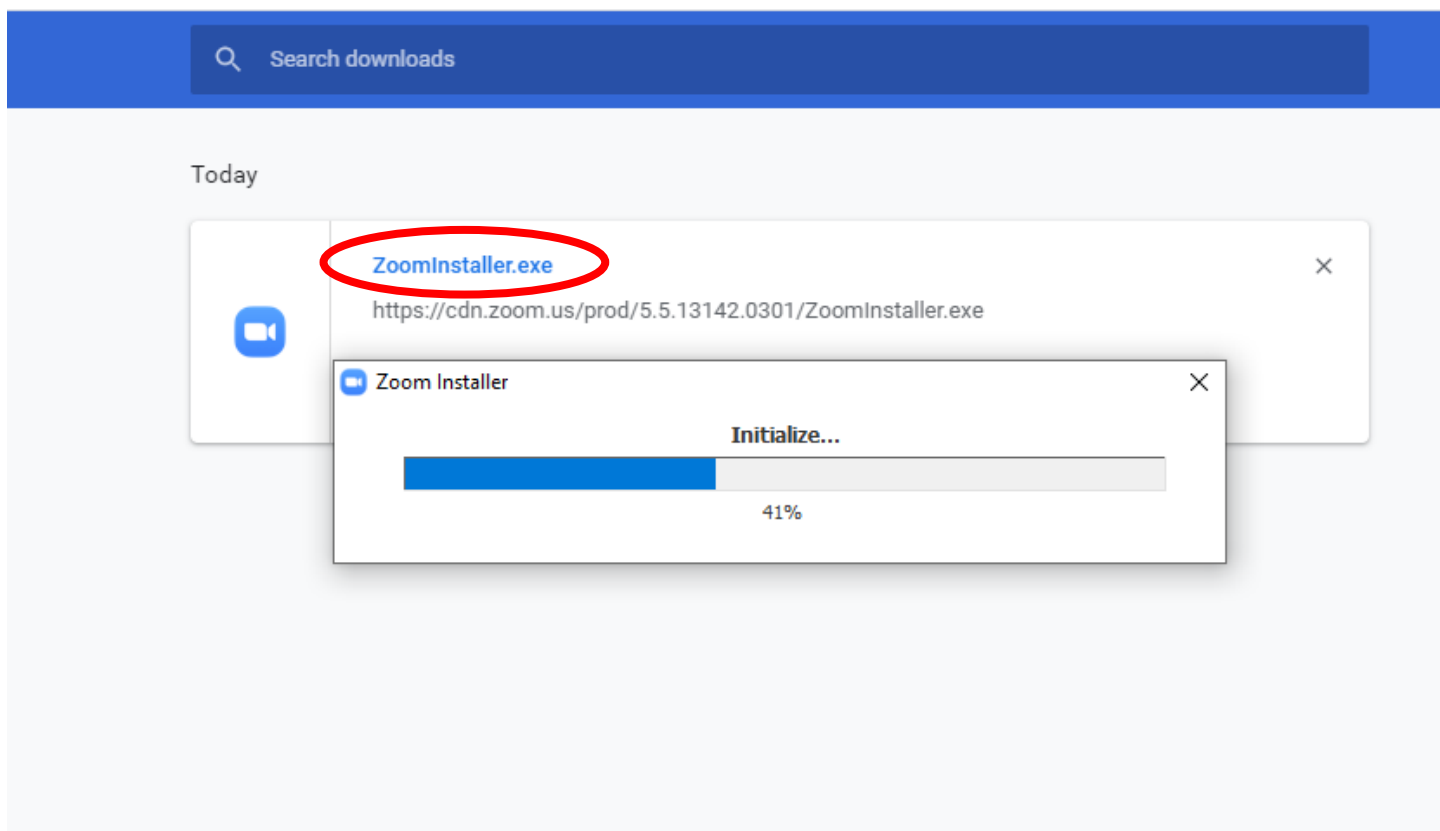

5. Click **Show All**.

## Zoom Client for Meetings

The web browser client will download automatically when you start or join your first Zoom meeting, and is also available for manual download here.

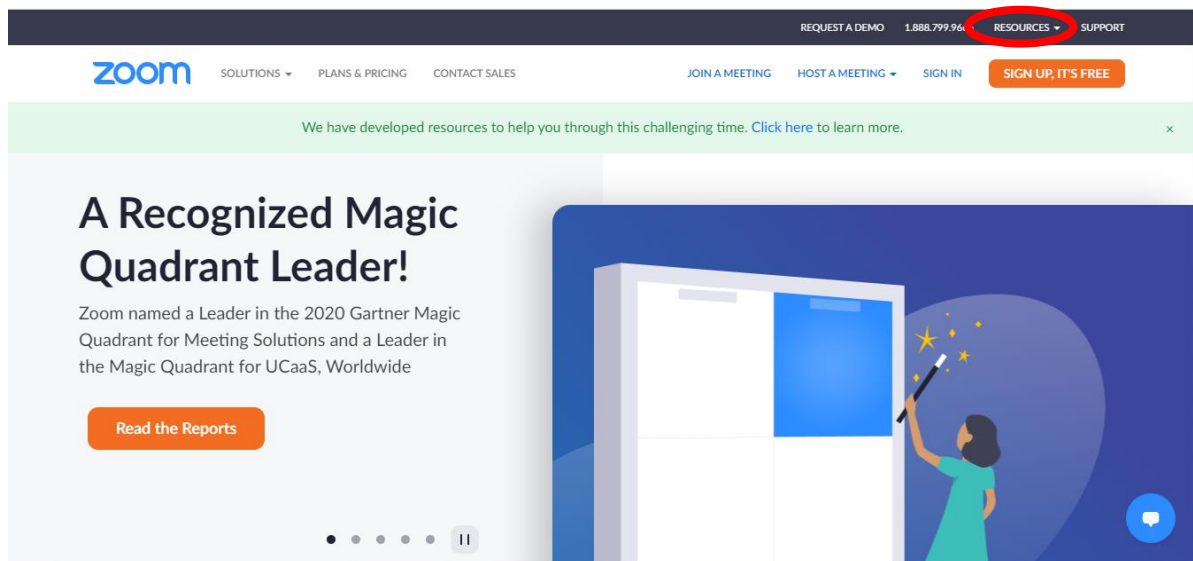

6. In the download section of the browser, you should be able to see the file you need to install. Click on **Zoominstaller.exe** and the install will start initializing.

7. A Zoom icon will now appear on your desktop. Click on the **icon** to start a meeting.

8. To download the Mobile App version of Zoom you need to click on **Resources** on top right again and click **Download Zoom Client**.

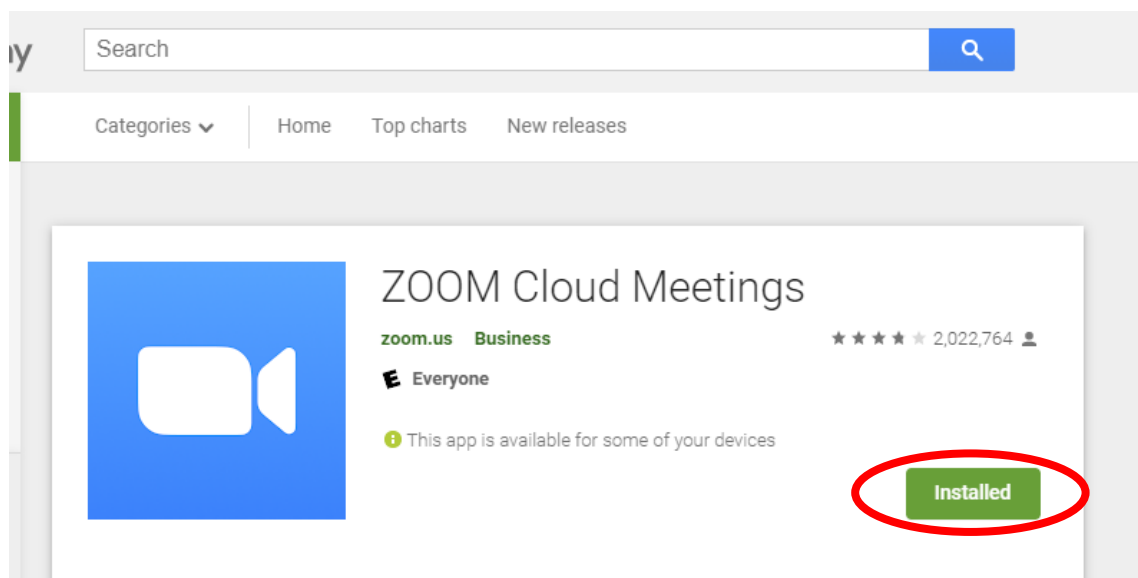

9. Scroll down until you see Zoom Mobile Apps. Click on Download in **App Store** or **Google Play** for the device you have (**Apple Phone** or **Android Phone**).

## Zoom Mobile Apps

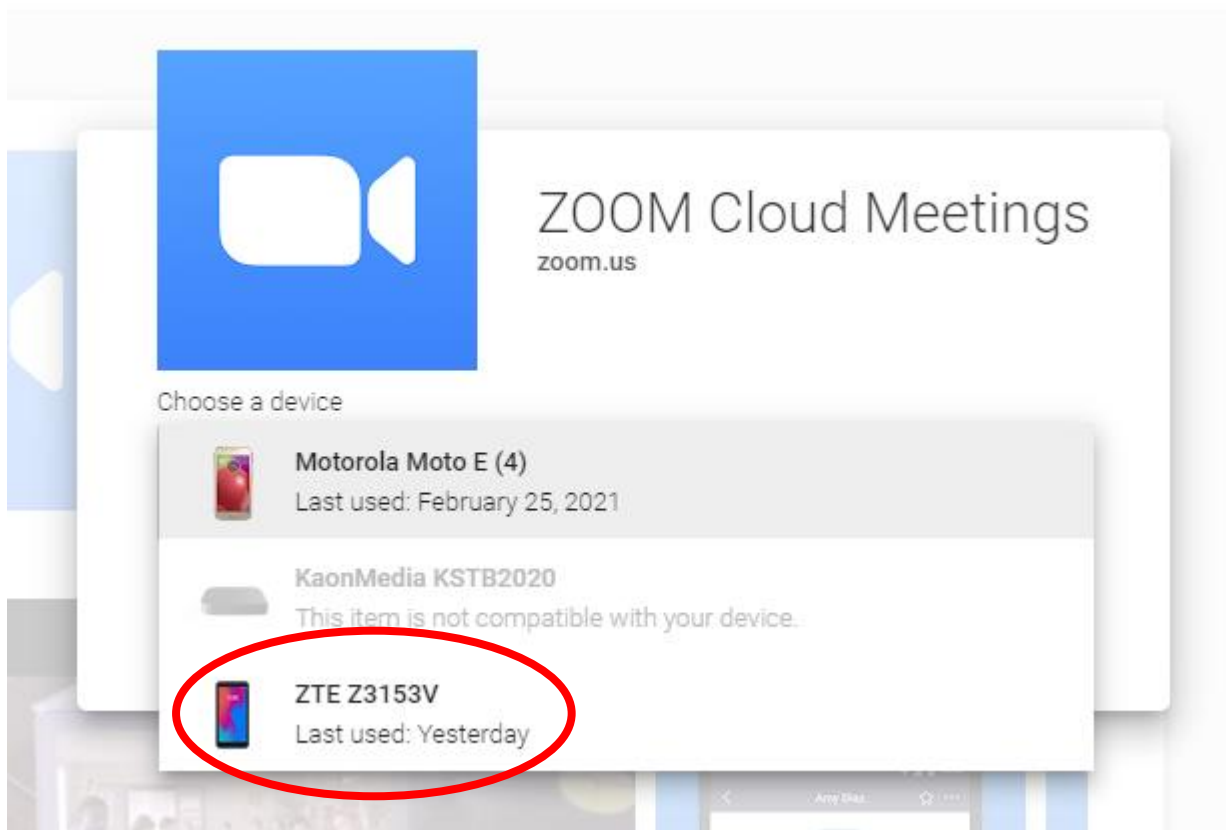

Start, join and schedule meetings; send group text, images and push-to-talk messages on mobile devices.

10. When you get to the **Android** screen click on the **Installed** button to install it on your Android phone linked to your **Gmail** account.

11. Choose your device in the drop-down menu. Then Click **Install**. The app will now be installed on your **Android** Device.

12. If you click on **“Download in App Store”** this will bring you to the Apple page that tells you the app is only available on the App Store for **iPhone** and **iPad** for your Apple account. You can look at the screenshots from this website as well showing you the Zoom client installed on iPhone or iPad.

## App Store Preview

This app is available only on the App Store for iPhone and iPad.
